Following on from the success of our beginners course last March Susan Roberts, one of NCLG's experienced tutors, will be teaching a one day beginners lace course again.

No previous lacemaking experience is necessary, equipment will be loaned to beginners for the class, the cost of the project pack is included in the course fee. Because this is a beginners course and so everyone gets their fair share of attention, places are limited and must be booked and paid for in advance.

Those who have not worked any bobbin lace before will make a snake bookmark:
